

**UNITED STATES DISTRICT COURT  
WESTERN DISTRICT OF TEXAS  
WACO DIVISION**

CloudofChange, LLC,

Plaintiff,

v.

Clover Network, Inc.,

Defendant.

Case No. 6:22-cv-634-ADA

**JURY TRIAL DEMANDED**

**PLAINTIFF'S DISCLOSURE OF ASSERTED CLAIMS  
AND PRELIMINARY INFRINGEMENT CONTENTIONS**

In accordance with the Standing Order Governing Proceedings – Patent Case, Plaintiff CloudofChange, LLC (“CloudofChange” or “Plaintiff”) makes the following disclosure of its asserted claims of U.S. Patent No. 9,400,640 (the “’640 Patent”), U.S. Patent No. 10,083,012 (the “’012 Patent”), U.S. Patent No. 11,226,793 (“’793 Patent”) concerning the infringing activities and products manufactured by Defendant Clover Network Inc. (“Clover” or “Defendant”).

CloudofChange’s disclosure is based upon publicly available information concerning the infringing activities and products. CloudofChange has received no discovery to date from Clover and certain information not yet available to CloudofChange may be relevant to its assertion of patent infringement. CloudofChange expressly reserves the right to supplement these Preliminary Infringement Contentions.

Subject to the above reservation of rights, CloudofChange makes the following disclosures:

**INFRINGEMENT OF U.S. PATENT NO. 9,400,640, U.S. PATENT NO. 10,083,012, AND U.S. PATENT NO. 11,226,793.**

**I. Disclosure of Asserted Claims and Preliminary Contentions**

**A. Asserted Claims**

Based upon information presently available to it, CloudfChange asserts that Clover has and/or continues to directly infringe and/or indirectly infringe, by active inducement and/or contributory infringement Claims 1, 3, 5-6, and 8-14 of the '640 Patent; Claims 1-2, 4, and 6-13 of the '012 Patent; and Claims 1-4, 9, 11, 42, and 44 of the '793 Patent.

**B. Preliminary Infringement Contentions Claim Charts**

CloudfChange's Preliminary Infringement claim chart of the '640 Patent is attached as Exhibits A to these disclosures, which sets forth where in the accused products each element of the asserted claim(s) are found.

As shown in Exhibit A, CloudfChange contends that each element of Claims 1, 3, 5-6, and 8-14 are literally present, including Claims 10 and 13 on information and belief.

To the extent that Defendant contends that certain elements are not literally present in the accused products, the elements are at least present under the Doctrine of Equivalents because the difference between the claims and Clover's infringement, if any, are insubstantial and the accused products perform substantially the same function, in substantially the same way, to achieve substantially the same result as the '640 Patent claims.

CloudfChange's Preliminary Infringement claim chart of the '012 Patent is attached as Exhibits B to these disclosures, which sets forth where in the accused products each element of the asserted claim(s) are found.

As shown in Exhibit B, CloudfChange contends that each element of Claims 1, 2, 4, 6-13 are literally present, including Claims 9 and 10 on information and belief.

To the extent that Defendant contends that certain elements are not literally present in the accused products, the elements are at least present under the Doctrine of Equivalents because the difference between the claims and Clover's infringement, if any, are insubstantial and the accused products perform substantially the same function, in substantially the same way, to achieve substantially the same result as the '012 Patent claims.

CloudfChange's Preliminary Infringement claim chart of the '793 Patent is attached as Exhibits C to these disclosures, which sets forth where in the accused products each element of the asserted claim(s) are found.

As shown in Exhibit C, CloudfChange contends that each element of Claims 1-4, 9, 11, 42, and 44 are literally present.

To the extent that Defendant contends that certain elements are not literally present in the accused products, the elements are at least present under the Doctrine of Equivalents because the difference between the claims and Clover's infringement, if any, are insubstantial and the accused products perform substantially the same function, in substantially the same way, to achieve substantially the same result as the '793 Patent claims.

### **C. Priority Date**

For purposes of this litigation, the priority date for each asserted claim of the '640 Patent is February 5, 2008, the filing date of the '640 Patent.

For purposes of this litigation, the priority date for each asserted claim of the '012 Patent is February 5, 2008, the filing date of the '640 Patent.

For purposes of this litigation, the priority date of each asserted claim of the '793 Patent is February 5, 2008, the filing date of the '640 Patent.

## II. Document Production Accompanying Disclosure

Pursuant to the Standing Order Governing Proceedings – Patent Case, Plaintiff CloudofChange identifies all documents, produced herewith, evidencing conception and reduction to practice for each claimed invention and a copy of the file history for each patent in suit: COCCLV0000001-COCCLV0001972.

Dated: September 30, 2022

### Connect your Station Pro to a network

Connect your Station Pro to the network after you assemble it. There are three ways to connect your Station Pro to a network: Ethernet (recommended), Mobile (SIM) card, and Wi-Fi.

If you plan to connect to a network using Wi-Fi, check to make sure your router is set up, connected to the network, and has a security level of WPA or WPA2. Your network needs to be a closed, protected, secure network to process payment transactions. If you offer Wi-Fi access to your customers, follow the best practice and give them a different Wi-Fi network to use.

To connect your Station Pro to a network:

- ① On the Welcome screen, select your preferred language and then tap Next.
- ② On the Network screen, choose your network type and tap Continue:
  - Ethernet networks connect with the supplied Ethernet cable.
  - Mobile networks use the installed SIM card and its cellular network connection.
  - Wi-Fi networks connect wirelessly to a router you have previously set up.
- ③ Wait until you see the message that the device is successfully connected and then tap Next.

	<h3>Connect your Clover device to a network</h3> <p>You need an internet connection to activate your device. After your device powers on, the Connect to Network screen helps get you connected.</p> <h4>Connect to the network with an Ethernet cable</h4> <p>Because wireless can be unreliable or spotty (which is often out of your control), we recommend connecting your Clover devices to the internet via Ethernet. This method ensures that your Clover device is connected and online even when your wireless connection is not responding.</p> <p>If your Ethernet cable is already plugged into the hub, your device automatically tries to connect to the internet. If your Ethernet is not connected, follow the instructions to plug in your Ethernet cable to your device.</p> <p>If you have problems setting up your Ethernet, learn more in the troubleshooting guide to <a href="#">fix your Ethernet connection problems</a>.</p> <div style="border: 1px solid green; padding: 5px; margin: 10px 0;"> <p> You can always connect to the Ethernet after exiting the Setup Wizard.</p> </div> <p>To connect your device via Ethernet:</p> <ol style="list-style-type: none"> <li>1 Plug one end of your Ethernet cable into the device hub.</li> <li>2 Plug the other end into your modem, router, or switch. Your device will automatically try to connect to the internet. You will see <b>Successfully Connected to Server</b> when connected. If your device does not automatically connect,</li> <li>3 Tap <b>Check Connection</b>. If this fails, wait two minutes and tap <b>Check Connection</b> button again. If you receive an <b>Error connecting to the network</b> message: <ul style="list-style-type: none"> <li>• Check that the router used is connected to the internet by plugging in your laptop or mobile device.</li> <li>• Check that the Ethernet cable is plugged all the way into the Printer.</li> <li>• Tap <b>Check Connection</b>. You will see <b>Successfully Connected to Server</b> when connected.</li> </ul> </li> </ol> <h4>Connect your Clover device to a Wi-Fi network</h4> <p>To connect to a Wi-Fi network:</p> <ol style="list-style-type: none"> <li>1 Tap <b>Configure</b> next to the Wi-Fi option.</li> <li>2 From the list of available wireless networks, tap the name of your wireless network. (If your network doesn't appear, tap <b>Add a New Network</b> and then tap the network by name.)</li> <li>3 Enter the network password.</li> <li>4 Tap <b>Done</b>.</li> <li>5 Tap <b>Check Connection</b>. When the connection is successful, you will be taken through the activation process. If not, you'll be asked to select a different network or re-enter the Wi-Fi password.</li> </ol>

## Fix network connections

If your Clover device is having network connection problems, you can follow a series of simple tests to diagnose and fix them.

At any time, you can [contact Clover Support](#).

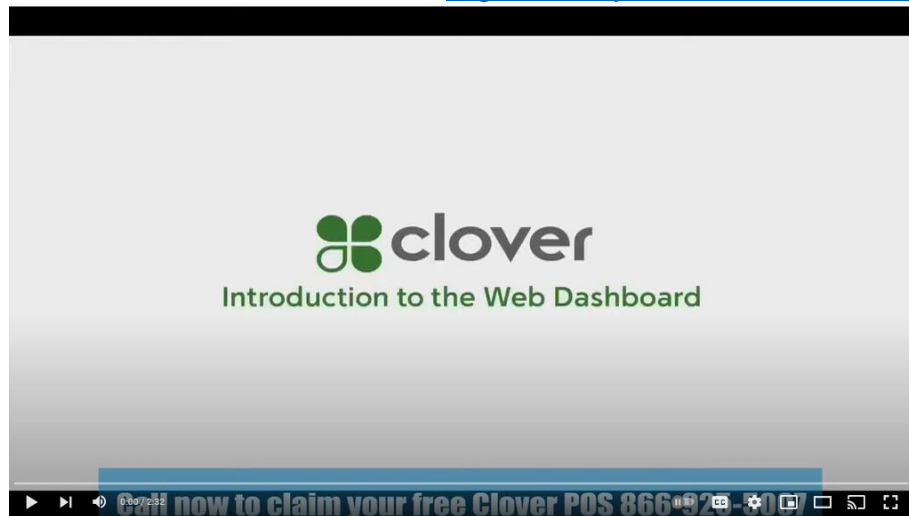

Clover devices can connect to the Internet in any one of these three ways:

- With a **3G** wireless connection, which uses 3G (third-generation wireless mobile) technology to connect.
- \* With a **Wi-Fi** wireless connection, which uses a router to distribute data to your devices without a cable.
- With an **Ethernet** cable that you have plugged in from a router to your Clover device.

You can troubleshoot connection problems by following the steps for your network type.

	<h2>Build your restaurant food and beverage menu</h2> <p>Build your menu by adding food and beverage items using the Inventory app on the Web Dashboard. When you build a menu, you can also define menu item modifiers to help the cashier take precise orders.</p> <p>To build your menu:</p> <ol style="list-style-type: none"> <li>1 On a web browser, log in to the <a href="#">Web Dashboard</a>.</li> <li>2 Click <b>Inventory &gt; Category &gt; Add New Category</b>. Decide whether you want to group similar menu items into categories for easier management. If you do, create a few categories, such as food or bar. Reports also group items by category for easier reading. After you create a category here, you can add items to it.</li> <li>3 Click <b>Inventory &gt; Labels &gt; Add New Label</b>. Create labels for your menu items to easily sort them for specific purposes, such as revenue class accounting. For example, you might have a walk-up eatery and a food truck, each with separate revenue accounting. You can create a label for each revenue class. Then attach each revenue class label to items in that revenue class. And report taxes easily for that revenue class.</li> <li>4 Click <b>Inventory &gt; Modifier Groups &gt; Add New Modifier Group</b>. Some menu items are ordered in a modified way, such as steak cooked rare or medium. Create modifiers and add their modifier groups to let the kitchen know exactly what the customer wants. You can also create modifiers for add-on items that cost extra, such as toppings.</li> <li>5 Click <b>Inventory &gt; Items &gt; Add New item</b>. Add menu items on this page. Fill in the details for each new item. Only the name is required. Add the item to a category. If your servers will order the item in several different ways, add it to a modifier group. If you are using labels for reporting, attach a label to it.</li> </ol> <p>See also, Prepare to work with inventories and menus at <a href="https://www.clover.com/help/prepare-to-work-with-inventories-and-menus/?device=ZKF1GcCo6sus0GkgWw6ku">https://www.clover.com/help/prepare-to-work-with-inventories-and-menus/?device=ZKF1GcCo6sus0GkgWw6ku</a></p>

*CloudfChange, LLC v. Clover Network Inc.*, Case No.: 6:22-CV-634-ADA  
Exhibit A, Claim Chart for U.S. Pat. No. 9,400,640

	<p><b>Product Code</b> Enter the universal product code (UPC) that identifies this item. On merchandise, this code is a string of numbers and letters that appears in a line of text below the barcode image.</p> <p><b>Show in Register</b> Leave this box checked to show the item in the Register app. Uncheck it to hide the item. It's useful, for example, to hide seasonal items that are not available all year.</p> <p><b>SKU</b> Enter the stock keeping unit (SKU) code you define.</p> <p><b>Stock Quantity</b> Enter the number of this item now in stock. By default, Clover tracks stock quantities for you. You can switch this off by <a href="#">adjusting stock quantity tracking</a>.</p> <p><b>Taxes</b> Select your choice of tax rates by checking the boxes. Only one default tax is allowed. Argentina merchants can add only one VAT or internal tax to an item.</p>
<b>Claim 13</b>	
13. The web-based point of sale (POS) builder system of claim 12	The discussion for claim 12 is herein incorporated by reference.
wherein said attributes are stored, retrievable and changeable from a back office database stored on said web server.	<p>On information and belief, Clover POS includes wherein said attributes are stored, retrievable and changeable from a back office database stored on said web server.</p> <p><i>See also</i> Clover Table Service Restaurant Webinar at <a href="https://youtu.be/v7sBOQ66rYw">https://youtu.be/v7sBOQ66rYw</a></p> <ul style="list-style-type: none"> <li>(11:40) Real time, from anywhere: Re: restaurant floor plans, “Now likewise, I can do this from a computer. So say if I’m at home and they say ‘we need this section open and y’all didn’t open it, I can log into my Clover Web Dashboard on my computer or phone and edit the floor plan from my dashboard as well and it will just immediately update the systems at the restaurant.”</li> <li>(29:45) Customization, on the main screen of the Clover device: “...accessible here, things like editing your menu can be done on site by clicking on the inventory app...” “...very simple to adjust...”</li> </ul>

*CloudofChange, LLC v. Clover Network Inc.*, Case No.: 6:22-CV-634-ADA  
Exhibit B, Claim Chart for U.S. Pat. No. 10,083,012

Claim Language	Accused Instrumentality: Clover POS System (including Clover Station Solo, Clover Station Duo (formerly Station Pro), Clover Mini, Clover Dashboard) (collectively, “Clover POS”)
a POS builder interface configured to be accessible via network communication with said web server over a communications network;	<p>Clover POS includes a POS builder interface configured to be accessible via network communication with said web server over a communications network.</p> <p>For example, Clover POS includes network capabilities for all devices to communicate with each other in real time over a wireless or wired network.</p>

*CloudofChange, LLC v. Clover Network Inc.*, Case No.: 6:22-CV-634-ADA  
Exhibit B, Claim Chart for U.S. Pat. No. 10,083,012

	<p><i>See also</i> Follow best practice for your network at <a href="https://www.clover.com/help/use-best-practices-for-networks">https://www.clover.com/help/use-best-practices-for-networks</a></p> <h3>Use best practices for networks</h3> <p>To properly process transactions, your network must be stable and have sufficient bandwidth. Unstable networks can cause transactions to temporarily halt, which causes the network connection to timeout and disconnect. Poor connections can also prevent devices from synchronizing with each other.</p> <h3>Have enough bandwidth: Use a Clover dedicated router</h3> <p>Increase bandwidth on your local network by limiting or reducing the number of non-Clover devices connected to the network. Your local network bandwidth varies based on the number of devices connected to the network and the volume of transactions they typically process.</p> <h3>Set up an Ethernet connection such as DSL or cable, rather than a hotspot</h3> <p>Use a hard-wired (Ethernet cable) high-speed Internet connection for Clover Station, Clover Station 2, and Clover Mini. This is especially helpful if you plan to use more than one Clover device or any peripheral equipment such as a kitchen printer.</p> <h3>Separate Wi-Fi for guest access</h3> <p>If you offer Wi-Fi access to your customers, set up two Wi-Fi networks: one for you and Clover devices, and one for guests. Having separate Wi-Fi for guests safeguards your devices and may boost device performance.</p> <p>Your guest network can have separate hours of operation that can be turned off at any time without affecting your system. You can limit the bandwidth to prevent illegal downloads and create a different password for the guest network.</p> <h3>Limit the use of hotspot network connections</h3> <p>Hotspots can limit the bandwidth required for normal Clover communication. If you plan to use a hotspot, it should be dedicated for Clover use. (Use another hotspot for other Internet needs).</p> <h3>Don't use your neighbor's Wi-Fi</h3> <p>Whenever possible, use your own Internet Service Provider (ISP) rather than a shared network. If you're using your neighbor's Wi-Fi solution and their Wi-Fi goes down, you can't troubleshoot the issue directly. Your signal may also be weaker if you don't have an internet source in your business' vicinity.</p> <h3>Use only WPA-WPA2 protocols to connect Clover to a Wi-Fi network</h3> <p>For added security, Clover devices are only compatible with WPA-WPA2 protocols. (They are not compatible with the WEP protocol, which is no longer supported.)</p>

## Set up online menu

The Ordering.app takes your existing Clover inventory and curates it to make it into a more customer friendly online ordering menu. You'll receive an email from The Ordering.app letting you know that they're done curating your menu. Once it's done, it'll go live and customers can start placing orders. Keep in mind that it might take a few days for your new online ordering website to show on Google search and maps.

The following items won't be included in your online ordering menu:

- Alcoholic items and modifiers
- Gift card items
- Catering, seasonal, or fee items.
- Happy hour or time-sensitive specials.
- Retail items.
- Items without pricing information.

You can edit your online ordering menu at any time from your Clover [Web Dashboard](#) > [Setup](#) > [Online Ordering](#) > [Online Menu](#). These changes won't be reflected in your inventory to provide the best online ordering experience for your customers and the best in-store experience for your servers and cashiers.

### Edit your online menu

- 1 Log in to your [Clover account](#).
- 2 Select **Account & Setup**.
- 3 Under Business Operations, select **Online Ordering**.
- 4 Select the **Manage** tab.
- 5 Select **Online Menu**.
- 6 Select the pencil  next to the item you want to edit. You can edit the online name or description of items or modifiers.
- 7 Optional: You can choose to list an item or modifier online anyway. Click the checkbox next to the item or modifier, then click **List online**.
- 8 Items or modifiers that were auto removed from your online menu are grayed out. Optional: select **list online anyway** to list the items online.
- 9 Select **Done**.

To remove items or modifiers from your online menu:

Log in to the [Web Dashboard](#).

- 1 Click **Account & Setup**.
- 2 Under Business Operations, click **Online Ordering**.
- 3 Click the online menu box.
- 4 Find the item you want to remove.
- 5 Click the checkbox to remove the checkmark.
- 6 Click **Done**.

### Remove a category from your online menu

- 1 Log in to your [Clover account](#).
- 2 Select **Account & Setup**.
- 3 Under Business Operations, select **Online Ordering**.
- 4 Select the **Manage** tab.
- 5 Select **Online Menu**.
- 6 Uncheck all boxes for the items in a category.
- 7 Select **Done**.

### Edit the name of a category in your online menu

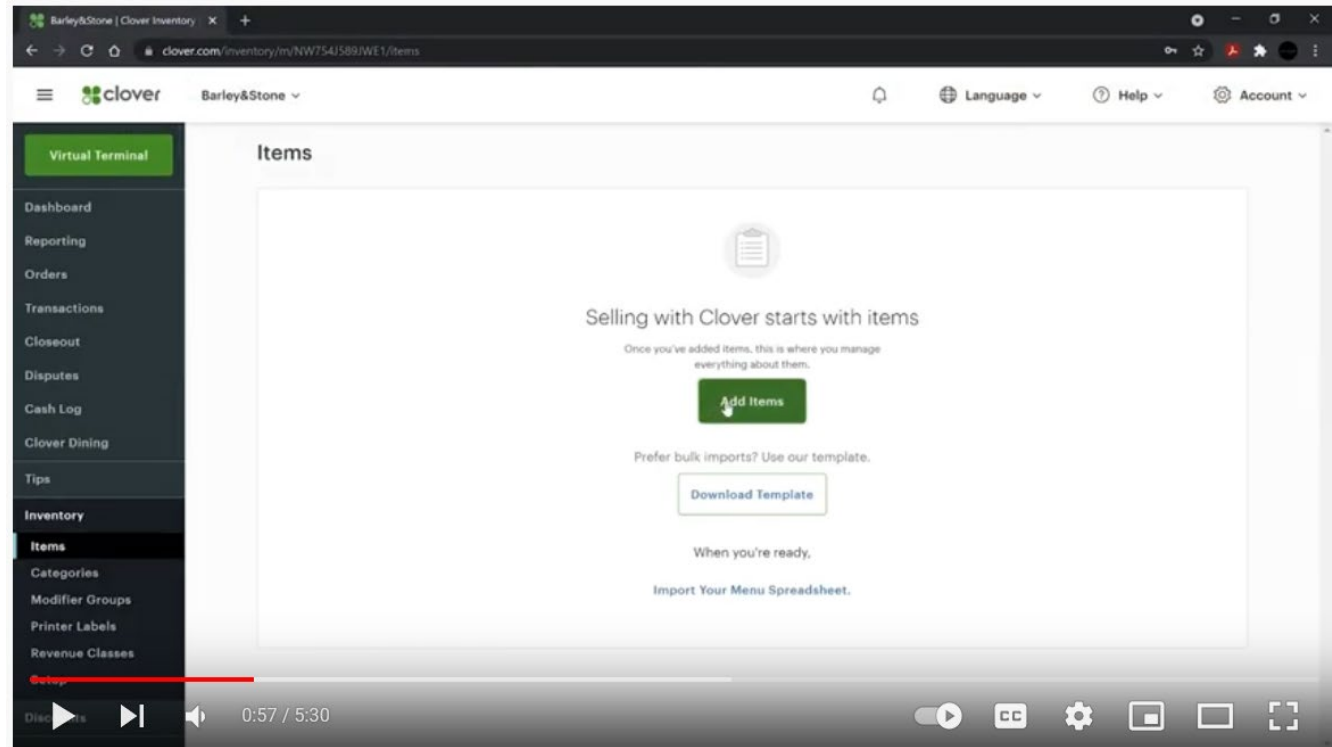

- 1 Log in to your [Clover account](#).
- 2 Select **Account & Setup**.
- 3 Under Business Operations, select **Online Ordering**.
- 4 Select the **Manage** tab.
- 5 Select **Online Menu**.
- 6 Select the pencil  next to the category name.
- 7 Edit the name of the category.
- 8 Select **Done**.

The screenshot displays a video player interface. The video content shows a web browser window with the URL `clover.com/inventory/m/NW754J589JWE1/items`. The browser's address bar and navigation icons are visible at the top. The web application has a dark sidebar on the left with a menu including 'Virtual Terminal', 'Dashboard', 'Reporting', 'Orders', 'Transactions', 'Closeout', 'Disputes', 'Cash Log', 'Clover Dining', 'Tips', 'Inventory', and 'Items'. The 'Items' menu item is currently selected. The main content area of the web application is titled 'Items' and features a large white box with the heading 'Selling with Clover starts with items'. Below this heading, there is a green 'Add Items' button. Further down, there is a link to 'Download Template' with the text 'Prefer bulk imports? Use our template.' and another instruction 'When you're ready, Import Your Menu Spreadsheet.' The video player controls at the bottom show a progress bar at 0:57 / 5:30, along with play, pause, and volume icons. Below the video player, the video title 'Create and manage your menu' is displayed, followed by '2,325 views • Sep 1, 2021'. At the bottom right of the video player, there are interaction buttons for '12' likes, 'DISLIKE', 'SHARE', 'SAVE', and a more options menu.

*CloudofChange, LLC v. Clover Network Inc.*, Case No.: 6:22-CV-634-ADA  
Exhibit B, Claim Chart for U.S. Pat. No. 10,083,012

The screenshot displays a video player interface showing a screen recording of the Clover inventory management system. The video player has a progress bar at 1:01 / 5:30 and standard playback controls. The screen recording shows a web browser window with the URL [clover.com/inventory/my/NW7541589/WE1/items](https://clover.com/inventory/my/NW7541589/WE1/items). The interface includes a sidebar with navigation options: Virtual Terminal, Dashboard, Reporting, Orders, Transactions, Closeout, Disputes, Cash Log, Clover Dining, Tips, Inventory, Items, Categories, Modifier Groups, Printer Labels, and Revenue Classes. The main content area is titled 'Items' and features an 'Add Item' dialog box. The dialog box has two input fields: 'Item name\*' containing 'Cheeseburger' and 'Price' containing '\$9.99'. Below these fields are 'Continue' and 'Cancel' buttons. The 'Continue' button is highlighted with a mouse cursor. In the background, there is an 'Add Items' button and a 'Download Template' button. The video title is 'Create and manage your menu' with 2,325 views and a date of Sep 1, 2021. The video has 12 likes and options to dislike, share, save, and more.

at least one server configured to: communicate with one or more POS terminals over a network comprising the Internet,

Clover POS includes at least one server configured to: communicate with one or more POS terminals over a network comprising the Internet.

For example, Clover POS includes network capabilities for all devices to communicate with each other in real time over a wireless or wired network.

See also Set up your Station Pro at <https://www.clover.com/help/set-up-your-station-pro/>

The LAN Ethernet cable connects the completed assembly to your internet network.

See also *id.*

### Connect your Station Pro to a network

Connect your Station Pro to the network after you assemble it. There are three ways to connect your Station Pro to a network: Ethernet (recommended), Mobile (SIM) card, and Wi-Fi.

If you plan to connect to a network using Wi-Fi, check to make sure your router is set up, connected to the network, and has a security level of WPA or WPA2. Your network needs to be a closed, protected, secure network to process payment transactions. If you offer Wi-Fi access to your customers, follow the best practice and give them a different Wi-Fi network to use.

To connect your Station Pro to a network:

- ① On the Welcome screen, select your preferred language and then tap Next.
- ② On the Network screen, choose your network type and tap Continue:
  - Ethernet networks connect with the supplied Ethernet cable.
  - Mobile networks use the installed SIM card and its cellular network connection.
  - Wi-Fi networks connect wirelessly to a router you have previously set up.
- ③ Wait until you see the message that the device is successfully connected and then tap Next.

See also Follow best practice for your network at <https://www.clover.com/help/use-best-practices-for-networks>

*See also* Connect your Station Pro to a Network <https://vizypay.zendesk.com/hc/en-us/articles/360052041754-Setting-up-your-Clover-Station-Pro>

#### Connect your Station Pro to a network

Connect your Station Pro to the network after you assemble it. There are three ways to connect your Station Pro to a network: Ethernet (recommended), Mobile (SIM) card, and Wi-Fi.

If you plan to connect to a network using Wi-Fi, check to make sure your router is set up, connected to the network, and has a security level of WPA or WPA2. Your network needs to be a closed, protected, secure network to process payment transactions. If you offer Wi-Fi access to your customers, follow the best practice and give them a different Wi-Fi network to use.

To connect your Station Pro to a network:

1. On the Welcome screen, select your preferred language and then tap Next.
2. On the Network screen, choose your network type and tap Continue:
  - Ethernet networks connect with the supplied Ethernet cable.
  - Mobile networks use the installed SIM card and its cellular network connection.
  - Wi-Fi networks connect wirelessly to a router you have previously set up.
3. Wait until you see the message that the device is successfully connected and then tap Next.

Next, activate your Station Pro.

#### Activate your Station Pro

Activate your Station Pro after you connect it to a network.

You'll need your activation code from the activation email you received from Clover.

To activate your Clover Station Pro:

1. On the activation screen, enter the 8-digit code you received in your activation email from Clover Support (app@clover.com). If you've already set up your account, you can also find the code on the Web Dashboard at the top of the page after you log in.
2. On the Install apps screen, wait while Clover updates the apps that come pre-installed on your system.
3. Select the Clover Service Plan you signed up for.
4. (Optional) Check the boxes for any third party apps you want to use. (You can also do this later from the Web Dashboard by choosing **More Tools**.) You're done with activation.

The screenshot displays a video player interface. The video content shows a web browser window with the URL `clover.com/inventory/m/NW754J589JWE1/items`. The browser's address bar and tabs are visible at the top. The web page features a dark sidebar on the left with a menu containing items like 'Virtual Terminal', 'Dashboard', 'Reporting', 'Orders', 'Transactions', 'Closeout', 'Disputes', 'Cash Log', 'Clover Dining', 'Tips', 'Inventory', and 'Items' (which is highlighted). The main content area of the web page is titled 'Items' and contains the following text: 'Selling with Clover starts with items', 'Once you've added items, this is where you manage everything about them.', a green 'Add Items' button, 'Prefer bulk imports? Use our template.', a 'Download Template' button, 'When you're ready,', and 'Import Your Menu Spreadsheet.'. The video player controls at the bottom show a progress bar at 0:57 / 5:30, a play button, and icons for closed captions, settings, and full screen. Below the video player, the video title 'Create and manage your menu' is displayed, followed by '2,325 views • Sep 1, 2021'. At the bottom right of the video player area are interaction buttons: a thumbs up icon with '12', a thumbs down icon with 'DISLIKE', a share icon with 'SHARE', a plus icon with 'SAVE', and an ellipsis icon.

Exhibit C, Claim Chart for U.S. Pat. No. 11,226,793

wherein said further information regarding the one or more POS transactions relate to one or more transactions by corresponding customers respectively associated with at least one of said one or more POS terminals.

Clover POS includes wherein said further information regarding the one or more POS transactions relate to one or more transactions by corresponding customers respectively associated with at least one of said one or more POS terminals.

For example, Clover POS demonstrates that Item sales, orders, and other features may be accessed through the Clover Web Dashboard with information from the POS terminals: Retail Webinar at [https://youtu.be/002k57\\_Q4N0](https://youtu.be/002k57_Q4N0)

- (41:52): Item sales from all POS terminals in Dashboard
- (47:30): changes to inventory from Web Dashboard that update immediately to all devices

The screenshot shows the Clover Web Dashboard interface. The left sidebar contains navigation links for Reporting, Item Sales, Orders, Transactions, and more. The main content area is titled 'Reporting - Revenue Item Sales' and shows a summary of sales for the date range 'Jul 23, 2020 12:00 am - Jul 23, 2020 11:59 pm'.

	Gross Sales	Net Sales	COGS	Gross Profit	Gross Profit Margin
	\$67.29	\$64.45	\$2.00	\$43.45	67.42%

Below the summary, there is a table of item sales. The table has columns for Name, Sold, Refunded, Gross Sales, Discounts, Refunds, Net Sales, and % Net S.

Name	Sold	Refunded	Gross Sales	Discounts	Refunds	Net Sales	% Net S
<b>Energy Drinks</b>							
RED BULL SUGAR FREE 20 OZ	5	0	\$22.45	\$0.00	\$0.00	\$22.45	
RED BULL RED 12 OZ	4	0	\$12.36	-\$1.24	\$0.00	\$11.12	
<b>Total</b>	<b>9</b>	<b>0</b>	<b>\$34.81</b>	<b>-\$1.24</b>	<b>\$0.00</b>	<b>\$33.57</b>	
<b>Uncategorized</b>							
Item 1	1	0	\$10.00	\$0.00	\$0.00	\$10.00	
Test Item	1	0	\$10.00	-\$1.00	\$0.00	\$9.00	
Authorizations							
Garden Salad	1	0	\$3.49	\$0.00	\$0.00	\$3.49	
French Fries	1	0	\$1.99	\$0.00	\$0.00	\$1.99

- (41:52): Item sales from all POS terminals in Dashboard
- (47:30): changes to inventory from Web Dashboard that update immediately to all devices

*CloudofChange, LLC v. Clover Network Inc.*, Case No.: 6-22-CV-634-ADA  
Exhibit C, Claim Chart for U.S. Pat. No. 11,226,793

Claim Language	Accused Instrumentality: Clover POS System (including Clover Station Solo, Clover Station Duo (formerly Station Pro), Clover Mini, Clover Dashboard) (collectively, “Clover POS”)
	 <p>The screenshot displays the Clover POS Reporting - Revenue Item Sales interface. The interface shows a sidebar with navigation options like Dashboard, Reporting, Item Sales, etc. The main area displays a report for "Jul 23, 2020 12:00 am - Jul 23, 2020 11:59 pm". It includes summary statistics: Gross Sales (\$67.29), Net Sales (\$64.45), COGS (\$2.00), Gross Profit (\$43.45), and Gross Profit Margin (67.42%). Below this is a table of items sold, categorized under "Energy Drinks" and "Uncategorized". The table columns include Name, Sold, Refunded, Gross Sales, Discounts, Refunds, Net Sales, and % Net S. Items listed include RED BULL SUGAR FREE 20 OZ, RED BULL RED 12 OZ, Garden Salad, and French Fries.</p>
